Tjiauw Jerrie Jayadi

Software Engineer – Front End Developer

+62-812-5319-5000 | jerriejayadi@gmail.com | linkedin.com/in/jerriejayadi | github.com/jerriejayadi

Summary

A passionate Front-End Developer with two years of hands-on experience in building modern and responsive web applications. With a meticulous eye for detail and a dedication to staying ahead in the ever-evolving landscape of web technologies, I specialize in translating designs into responsive, pixel-perfect interfaces. I thrive in collaborative environments where innovation and excellence are paramount.
